

To whom it may concern,

It is with great pleasure that I write this letter of recommendation for Dr. Guy Peh. I have had the pleasure of working with Dr. Peh for the past 25 plus years. During this time I have witnessed an unwavering commitment to his faith and an overwhelming hunger to present the Gospel of Christ to a hurting world.

Dr Peh has a proven track record of evangelism. He has preached the Gospel to many nations, written several best-selling books and speaks life to all that hear him. He is able to passionately convey truth to his hearers with responses of healing, deliverance and many miracles.

He and his wife Ilka are exceptional at building strong relationships with their audiences that are meaningful and inspire transformative changes. Their impact on all who know them is always very positive.

Thank you for your consideration,
